Attorney's Docket No.: 00216-528001 / T-680

49 ~~51~~. (New) The product of claims 1, ~~8~~, or ~~16~~, wherein the first portion comprises a polyhydric alcohol and a dibenzylidene alditol and wherein the antiperspirant salt is dissolved in the polyhydric alcohol.

50 ~~52~~. (New) The product of claim ~~51~~, wherein the second portion also comprises a polyhydric alcohol and a dibenzylidene alditol.

51 ~~53~~. (New) The product of claim ~~52~~, wherein the first portion comprises a dibenzylidene alditol and wherein the hydrophilic vehicle comprises a polyhydric alcohol and the antiperspirant salt is dissolved in the hydrophilic vehicle.

52 ~~54~~. (New) The product of claim ~~53~~, wherein the second portion also comprises a dibenzylidene alditol and wherein the hydrophilic vehicle comprises a polyhydric alcohol.--

53 ~~55~~. (New) A product for underarm application, comprising
 a container, and
 a composition within the container having an application surface, the composition including a first portion comprising a polyhydric alcohol, a dibenzylidene alditol, and an antiperspirant salt and/or a deodorant active ingredient, and a second portion comprising a polyhydric alcohol, a dibenzylidene alditol, and an antiperspirant salt and/or a deodorant active ingredient and having a different composition from the first portion, both the first portion and the second portion forming part of the application surface, the first portion and/or the second portion being optically clear, and the first portion and/or the second portion including an antiperspirant salt, wherein the antiperspirant salt $Al_2(OH)_{6-a}X_a$ wherein X is Cl, Br, I or NO_3 and a is about 0.3 to about 5, and aluminum-zirconium salts including mixtures or complexes of aluminum salts having the formula $Al_2(OH)_{6-a}X_a$ and zirconium salts having the formula $ZrO(OH)_{4-pb}Y_b$ wherein Y is Cl, Br, I, NO_3 , or SO_4 , b is about 0.8 to about 4, and p is in the valence of Y wherein Y is Cl, Br, I, NO_3 , or SO_4 , b is about 0.8 to about 4, and p is in the valence of Y.--
